Stuttering is Cool: A Guide to Stuttering in a Fast-Talking World for teenagers and adults who stutter. Daniele uses humour and Franky Banky comics to share his own experiences and methods for breaking out of the covert shell and becoming a person who stutters openly and confidently in all speaking situations such as giving presentations, dating, job interviews and more! Fluent-speaking SLPs learn what it's like to live with stuttering and gain a resource that can be used to generate discussions in therapy sessions. In fact, this book is used as a textbook or required reading in more than 19 universities around the world!

Tales of Mischief, Mayhem and Mirth contains 15 zany stories featuring Franky Banky in various speaking situations as he participates in a hot air balloon race, gets chased by space aliens, accidentally jamming on stage at a packed concert and more. All while explaining his bumpy speech to everyone he meets along the way who give him funny looks and well-meaning but silly advice he didn't ask for (like remembering to breathe). Perfect for kids up to and including pre-teens and young-at-heart teens and adults. SLPs can also use the stories as discussion starters in therapy sessions.

Franky Banky SLP Guides on Teachers Pay Teachers. Downloadable activity worksheets and clinician answer sheets for speech therapists to use with clients who stutter.
